Location: Agadir, Morocco
Available: March 2027

PROFILE

5th-year (final-year) engineering student in Artificial Intelligence and Big Data at Agadir Polytechnic School. Rigorous, autonomous and curious, I design reliable, explainable and deployable business applications and AI solutions. Currently seeking a 6-month final-year internship in France.

PROFESSIONAL EXPERIENCE

MEDIA TELECOM - Engineering Assistant Intern

Odoo 17, artificial intelligence and decision support - Agadir

- Contributed to an ERP and AI solution addressing MEDIA TELECOM business needs.

AL KARAMA PRIVATE SCHOOL - Web Development Intern

School Management

- School management website covering students, classes and absence tracking.

NADOR EL AROUI AIRPORT - Mobile Development Intern

Flutter / Dart

- Real-time flight tracking application inspired by Flightradar, with aircraft visualization and access to key information.

COMPLETED PROJECTS

Odoo 17 ERP - Custom Business Module and Decision Support

- Development of a custom ERP module with 7 interactive OWL and Chart.js dashboards to visualize business data.
- FastAPI microservice integration: NLP extraction, classification, RAG-based search and estimation with human validation.
- Docker, PostgreSQL, ChromaDB, Ollama and UML; Ubuntu deployment preparation and 24 automated tests.

House Price Prediction using Machine Learning

- Data cleaning, exploratory analysis and feature preparation with Python, Pandas and scikit-learn.
- Linear and Ridge regression; train/test split, cross-validation and evaluation using R^2 and RMSE.

AI Face Detection

- Face detection and localization from images and a camera stream.
- Processing of two visual input types: still images and video from the camera.

EDUCATION

Agadir Polytechnic School - 2024 - 2027 · Engineering Cycle, Computer Engineering (AI & Big Data)

Mprepas - Marrakech - 2022 - 2024 · Preparatory Classes for Leading Engineering Schools · MP

Akenssous - Essaouira - 2021 - 2022 · Baccalaureate in Physical Sciences - Mention Well

SKILLS

SAP: fundamentals of SAP Business AI Platform / SAP BTP

Languages: Python, C/C++, Java, JavaScript, PHP and Dart

AI / Data: Pandas, NumPy, TensorFlow, NLP, RAG, Spark and Hadoop

Web / ERP: Odoo 17, FastAPI, OWL, Chart.js and HTML/CSS

Tools: Git, GitHub, Docker, Linux, PostgreSQL and Postman

Soft Skills: rigor, autonomy, analytical thinking and teamwork
